### February 2008

#### Stamford Bridge re-opening very soon

We are delighted to announce that the Stamford Bridge swimming pool is finally re-opening after extensive repairs. The new opening date is due to be **Tuesday 19th February**.

You may be wondering why it has been closed for so long. Well, the original problem, a fire, was only fixed after many months due to the Schools' Insurance company delaying repairs by haggling over repair costs.

Then a new problem was found, a broken pipe encased deep in the concrete foundations, which the Insurance company refused to pay for, as it was an unrelated problem. So the School would have to pay the extra £5,000 cost.

Eventually a local contractor kindly offered to do the repairs at a much lower cost, but as and when his day job allowed.

#### Morley Swim School now incorporated into the PoolBabies Swim School

From January 2008, the **Morley Swim School** has been incorporated under **PoolBabies**, so the new Swim Schools will be known as the **PoolBabies Swim School**.

Both existing Swim schools are run by MarjolyN Morley (Marjolyn Hanselman as she is now). Please be assured that everything else for the Swim School is unchanged.

Same lessons, pools, instructors, fees and most importantly, same caring ethos and excellent quality of instruction.
